

P&H Mining Products

BOUNDARY P&H MINING PRODUCTS

Boundary has been supplying the highest quality P&H replacement parts to the worldwide mining community for 35+ years.

Boundary's parts are 100% interchangeable with OEM parts and are inspected regularly. The engineers involved in the design and construction of your parts are also the ones inspecting them.

Boundary's hallmark innovation is inherent in all of our products. Ask us how our P&H product line will perform better and how our service approach leads to constant innovation and improvement.

P&H Mining Products

Cost Effective Performance

BOUNDARY P&H MINING PRODUCTS

Boundary's P&H Mining Products represent the highest quality in the market. Whether undercarriage, bucket parts or access and egress systems to improve safety, Boundary is your source. The table below outlines our current capabilities. If we don't have the part, we can engineer it.

Boundary P&H Mining Products		Shovels						Drills
		2100	2300XP	2800XPA	2800XPB & XPC	4100XPB & XPC	4100A	P&H & GD
